

SHP-T TwinArc/LU Standby Extra

High Pressure Sodium

Ideal for applications which are difficult to access, or where maintenance is expensive, the SHP-T/LU Standby Extra range are perfect for tunnels, airports, military installations, harbours and industrial sites. This range of high pressure sodium lamps feature a double arc tube construction which guarantees immediate re-strike after a power interruption. The range provides exceptional reliability, offering 6 years of maintenance-free service and good lumen maintenance, exceeding 80% over life.

- SHP-T/LU Standby Extra range ideal for applications which are difficult to access, or where maintenance is expensive
- Dual arc tube design guarantees immediate re-strike after a power interruption
- Will operate on both Super Imposed and Standard Pulsed Igniters
