LEDSMART+™ ROTARY DISC AND WALL MOUNTING KIT

ITEM NUMBER: MMCE/RT

It is suitable for use with LEDsmart+ Rotary Dimmers, item number MMDM/RT. It is mounted directly into a Gyprock™ wall, with no additional wall plate required. This provides an elegant interface for LEDsmart+ Rotary Dimmers, with a visible diameter of only 56mm.

A 1 X Wall Mounting Kit
B 1 X White Rotary Disc with faux glass outer ring
C 1 X White Rotary Disc
D 1 X Bezel and Dial Removal Tool
E 1 X Rotary Retaining Bezel
F 1 X Adaptor Base for custom made rotary discs
G 1 X Dimmer Removal Tool

## COLOURED BEZEL KIT FOR LEDsmart+ PUSH BUTTON DIMMERS/SWITCHES/TIMERS

ITEM NUMBER: DGACCESSPK1

Allows LEDsmart+ Push Button Dimmers, Switches and Timers to be customised to provide a blue, orange or green indicator, rather than the standard white indicator.

A 1 x Bezel & Dial Removal Tool
B 10 x Push Button Retaining Bezel — Orange
C 10 x Push Button Retaining Bezel — Blue
D 10 x Push Button Retaining Bezel — Green

INSTRUCTIONS

■ Can be used with both LEDsmart and LEDsmart+ ranges
■ Bezel removal tool and detailed instructions included with each kit
■ One of each is pre-packaged with LEDsmart+ push button devices, not LEDsmart devices

LOAD BYPASS DEVICE

ITEM NUMBER: MMBP

This device can be used to correct issues seen with some modern lighting load types such as LEDs or CFLs when used in conjunction with LEDsmart+ products (or other electronic control devices). The devices is designed to fix issues such as:

■ When switched off via a LEDsmart+ product, lights flicker, pulse on/off or do not switch off completely
■ When switching on via a LEDsmart+ product, lights have difficulty switching on and LEDsmart+ indicators flicker or pulse
